## Journal of Surface Investigation: X-ray, Synchrotron and Neutron Techniques

---

Vol. 13, No. 2, 2019

A simultaneous English language translation of this journal is available from Pleiades Publishing, Ltd.

Distributed worldwide by Springer. *Journal of Surface Investigation: X-ray, Synchrotron and Neutron Techniques* ISSN 1027-4510.

---

Mo/Si Multilayer Mirrors with B<sub>4</sub>C and Be Barrier Layers

S. Yu. Zuyev, D. E. Pariev, R. S. Pleshkov, V. N. Polkovnikov, N. N. Salashchenko, M. V. Svechnikov, M. G. Sertsu, A. Sokolov, N. I. Chkhalo and F. Schäfers p. 169 [abstract](#)

On the Possibilities of Multilayer Mirrors for Measuring the Concentration of Boron Impurities in Diamond

S. A. Garakhin, V. N. Polkovnikov and N. I. Chkhalo p. 173 [abstract](#)

Internal Stresses in Mo/Y Multilayer Mirrors

D. S. Kvashennikov, Yu. A. Vainer, S. Yu. Zuev and V. N. Polkovnikov p. 177 [abstract](#)

Miniature Ion Source KLAN-10M with a Plasma Neutralizer

M. S. Mikhaylenko, A. E. Pestov, N. I. Chkhalo and L. A. Goncharov p. 182 [abstract](#)

Neutron Diffraction and Spectrometry at the RADEX Pulsed Neutron Source of the Institute for Nuclear Research, Russian Academy of Sciences

V. S. Litvin, A. A. Alekseev, D. N. Trunov, S. N. Aksenov, E. S. Clementyev, V. N. Marin, S. I. Potashev, A. A. Stolyarov, Yu. B. Lebed, V. L. Kuznetsov, S. P. Kuznetsov, I. V. Meshkov and R. A. Sadykov p. 188 [abstract](#)

Study of the X-Ray Radiation in Metal-Containing Composites Irradiated with Neutrons and Photons

Yu. M. Burmistrov and V. M. Skorkin p. 195 [abstract](#)

Sputtering of Silicon Single Crystals under Irradiation with a Helium and Argon Ion Beam with an Average Energy of 1 keV

N. V. Volkov and D. A. Safonov p. 199 [abstract](#)

Photoluminescence of ZnO Micropowder and Nanopowder after Proton and Electron Irradiation

V. V. Neshchimenko, Li Chundong and M. M. Mikhailov p. 202 [abstract](#)

On the Formation of Microheterogeneities in Epitaxial Films of Nonstoichiometric Ferrogarnets

M. F. Bulatov and D. V. Churikov p. 206 [abstract](#)

Magnetic Anisotropy in Thin Films of FePt Detected by the Ferromagnetic Resonance Method

A. I. Dmitriev, A. V. Kulikov, I. F. Gilmutdinov, N. N. Dremova, A. A. Mazitov, M. S. Dmitrieva, S. I. Alekseev and V. G. Myagkov p. 210 [abstract](#)

Analysis of the Structure and Composition of Fe<sub>2</sub>O<sub>3</sub> Oxides Subjected to Magnetic Pulse Treatment

A. A. Virus, M. N. Shipko, M. A. Stepovich, T. P. Kaminskaya, V. V. Korovushkin, A. I. Tikhonov and E. S. Savchenko p. 215 [abstract](#)

Influence of Electromagnetic-Field Nonuniformity on The Interaction Between a *H*-Wave and a Thin Metal Layer

A. I. Utkin and A. A. Yushkanov p. 221 [abstract](#)

Laser Modification of the Surface of Titanium: Technology, Properties, and Prospects of Application

S. V. Telegin, A. V. Lyasnikova, O. A. Dudareva, I. P. Grishina, O. A. Markelova and V. N. Lyasnikov p. 228 [abstract](#)

PLD Grown SiC Thin Films on Al<sub>2</sub>O<sub>3</sub>: Morphology and Structure

N. I. Kargin, A. S. Gusev, S. M. Ryndya, A. A. Timofeev, M. M. Grekhov, N. V. Siglovaya and S. V. Antonenko p. 232 [abstract](#)

X-Ray Diffraction and Differential Scanning Calorimetry Studies of Crystalline and Amorphous Regions in Composite Porous Films

S. I. Lazarev, Yu. M. Golovin, V. M. Polikarpov and K. V. Shestakov p. 240 [abstract](#)

Macroscopic and Microscopic Simulation of Processes of the Interaction of Water Vapor and Slit-like Pores

E. G. Nikonov, M. Pavluš and M. Popovičová p. 246 [abstract](#)

Interaction between HAP and Surfaces with Different Structures as an Important Field of Surface Engineering

E. A. Bogdanova, A. G. Shirokova, V. M. Skachkov and N. A. Sabirzyanov p. 252 [abstract](#)

Thermodynamic Analysis of Interface-Interaction Processes in a Silicon/Silicon Carbide Structure during Electron-Beam Treatment

E. Yu. Gusev, S. P. Avdeev and O. A. Ageev p. 256 [abstract](#)

Study of the Erosive Wear of Coatings by Means of a Mobile Heterogeneous Jet Flow of Limited Area

S. A. Borisov, S. V. Dobrovolskiy, Yu. I. Gloukhovskaya and P. V. Nikitin p. 261 [abstract](#)

Aperiodic Mirrors Based on Multilayer Beryllium Systems

S. A. Garakhin, S. Yu. Zuev, R. S. Pleshkov, V. N. Polkovnikov, N. N. Salashchenko and N. I. Chkhalo p. 267 [abstract](#)

Studying the Emission of X-Ray Quanta, Neutrons, and Charged Particles from Deuterated Structures Irradiated with X-Rays

O. D. Dalkarov, M. A. Negodaev, A. S. Rusetskii, V. I. Tsechosh, B. F. Lyakhov, E. I. Saunin, A. A. Bolotokov and I. A. Kudryashov p. 272 [abstract](#)

Study of the Processes of Mesoporous-Silicon Carbonization

A. S. Gusev, N. I. Kargin, S. M. Ryndya, G. K. Safaraliev, N. V. Siglovaya, A. O. Sultanov and A. A. Timofeev p. 280 [abstract](#)

Simulation of the Properties of Betavoltaic Cells Based on Silicon and  $^{63}\text{Ni}$  Enriched Film

M. A. Polikarpov and E. B. Yakimov p. 285 [abstract](#)

Description of the Charge–Energy Distribution of Fast Ions

N. V. Novikov and Ya. A. Teplova p. 289 [abstract](#)

Description of the Energy Losses of Heavy Ions in Carbon As a Function of Their Velocity

Yu. A. Belkova and Ya. A. Teplova p. 296 [abstract](#)

Depth Profiling of Layered Si–O–Al Thin Films with Secondary Ion Mass Spectrometry and Rutherford Backscattering Spectrometry

V. I. Bachurin, N. S. Melesov, A. A. Mironenko, E. O. Parshin, A. S. Rudy, S. G. Simakin and A. B. Churilov p. 300 [abstract](#)

On the Dynamic Annealing of Ion-Induced Radiation Damage in Diamond under Irradiation at Elevated Temperatures

A. M. Borisov, V. A. Kazakov, E. S. Mashkova, M. A. Ovchinnikov and E. A. Pitirimova p. 306 [abstract](#)

Dynamic Potential of the Interaction between Neutral Atoms and the Surface of a Crystal

E. V. Dergacheva, V. S. Malyshevsky and G. V. Fomin p. 314 [abstract](#)

Structure Changes in Carbon Films Prepared by Electron-Beam-Assisted Deposition

S. N. Korshunov, A. M. Lebedev, Yu. V. Martynenko, N. Yu. Svechnikov and I. D. Skorlupkin p. 317 [abstract](#)

Ion-Track Modification of a Silicon-Dioxide Film Implanted with Zinc Ions and Annealed in Oxygen

V. V. Privezentsev, A. N. Palagushkin, V. A. Skuratov, V. S. Kulikauskas, V. V. Zatekin, A. V. Makunin, D. A. Kiselev, E. A. Steinman and A. N. Tereshchenko p. 326 [abstract](#)

Simulation of Particle Scattering at Amorphous and Polycrystalline Targets

D. S. Meluzova, P. Yu. Babenko, A. P. Shergin and A. N. Zinoviev p. 335 [abstract](#)

Modeling of the Influence of the Thickness of an Insulating Film on a Cathode Surface on its Effective Secondary-Electron Emission Yield in Low-Current Gas Discharge

V. I. Kristya, Myo Thi Ha and M. R. Fisher p. 339 [abstract](#)

Development of a Gas Cluster Ion Source and Its Application for Surface Treatment

V. O. Pelenovich, X. M. Zeng, A. E. Ieshkin, V. S. Chernysh, A. B. Tolstogouzov, B. Yang and D. J. Fu p. 344 [abstract](#)

Effect of the Composition of the Lubricating Medium on the Structure of Surface Layers Formed by the Friction of a Servovite Film

V. E. Burlakova, E. G. Drogan, A. A. Novikova and M. A. Belikova p. 351 [abstract](#)

Asymptotic Formulas in the Theory of Diffraction and Transition Radiation on a Conducting Sphere

V. V. Syshchenko and E. A. Larikova p. 359 [abstract](#)

Ancient Parchments: Structural Diagnostics and Visualization of Textual Fragments of Manuscripts—A Natural-Science Approach

E. A. Sozontov, A. A. Demkiv, P. V. Guryeva, G. S. Peters, N. N. Kolobylna, E. V. Oukhanova and E. B. Yatsishina p. 366 [abstract](#)
