Journal of Surface Investigation: X-ray, Synchrotron and Neutron Techniques

Vol. 13, No. 4, 2019

A simultaneous English language translation of this journal is available from Pleiades Publishing, Ltd.

Distributed worldwide by Springer. *Journal of Surface Investigation: X-ray, Synchrotron and Neutron Techniques* ISSN 1027-4510.

Compact Magnetic Cell with Permanent Magnets for X-Ray Diffraction Experiments

V. V. Tarnavich, V. A. Ukleev, Yu. P. Chernenkov, A. S. Volegov and S. V. Grigoriev
p. 567 [abstract](#)

Multiple-Wave Interaction of X-Rays in a Paratellurite Crystal under Excitation of Ultrasonic Vibrations

Ya. A. Eliovich, A. V. Targonskii, A. N. Darinskii, P. A. Prosekov, Yu. V. Pisarevsky, A. E. Blagov, V. I. Akkuratov, V. A. Lomonov, V. R. Kocharyan, A. R. Mkrtchyan and M. V. Kovalchuk p. 570 [abstract](#)

Estimating the Crystallographic Structure of AlGa_N/Ga_N Heterostructure Buffer Layers Using Symmetric and Asymmetric X-ray Schemes

A. V. Lutzau, E. M. Temper and K. L. Enisherlova p. 578 [abstract](#)

Atomic Force Microscopy and the Optical Characteristics of Hybrid Polymeric Nanosystems Based on Silver and Selenium Nanoparticles

S. V. Valueva, M. E. Vylegzhanina and A. V. Plyushchenko p. 586 [abstract](#)

Optimization of the Electron Optical System of a Scanning Electron Microscope for Measuring the Size of Micro- and Nanoobjects

V. V. Kazmiruk, I. G. Kurganov, A. A. Podkopaev and T. N. Savitskaya p. 594 [abstract](#)

Effect of the Process Conditions for the Preparation of CoNiFeSiB Amorphous Alloys on Their Structure and Properties

E. V. Pustovalov, E. B. Modin, A. M. Frolov, A. S. Kosovets, N. B. Kondrikov, N. F. Karpovich, S. A. Pyachin, S. V. Dolzhikov, G. S. Kraynova, V. S. Plotnikov, V. V. Tkachev, A. N. Fedorets and N. V. Ilin p. 600 [abstract](#)

Generation of Hard Bremsstrahlung at the Grazing Incidence of 18-MeV Electrons of a Betatron Beam on the Surface of Ta Foil 13 μm Thick

M. M. Rychkov, V. V. Kaplin, S. I. Kuznetsov, V. A. Smolyanskiy and I. K. Vaskovskiy p. 609 [abstract](#)

On the Effect of Carbon Additives on the Porosity of Positive Electrodes Based on LiFePO_4 for Lithium-Ion Batteries

M. V. Avdeev, M. S. Yerdauletov, O. I. Ivankov, S. A. Bocharova, F. S. Napol'skiy and V. A. Krivchenko p. 614 [abstract](#)

Comparative Analysis of Carbon and Fluorocarbon Coatings Obtained by Means of a Low-Frequency Plasma Torch under Atmospheric Pressure

A. N. Lyamin, A. V. Shvedov, V. M. Elinson and S. V. Dvoryak p. 619 [abstract](#)

On the Formation of Nanostructured Carbon Layers on the Surface of Organic Polymers under the Action of a High-Power Ion Beam

V. S. Kovivchak p. 624 [abstract](#)

Effect of the Microstructure of Cermet Powders on the Performance Characteristics of Thermal Spray Coatings

A. E. Chesnokov, A. V. Smirnov and I. S. Batraev p. 628 [abstract](#)

Propagation of Waves and Particles Through Porous Structures (I)

G. M. Filippov, V. A. Aleksandrov, I. V. Lysova and A. V. Stepanov p. 635 [abstract](#)

Energy Threshold of the Atomic and Cluster Sputtering of Some Elements under Bombardment with Cs, Rb, and Na Ions

R. Djabbarganov, B. G. Atabaev, Z. A. Isakhanov and U. B. Sharopov p. 640 [abstract](#)

Effect of the Surface of Medical Titanium Endoprostheses on the Efficiency of Fibrointegration

A. I. Shaikhaliyev, A. A. Polisan, S. Yu. Ivanov, Yu. N. Parkhomenko, M. D. Malinkovich, K. N. Yarygin and L. D. Arazashvili p. 644 [abstract](#)

Application of the Scale-Space Method in Studying Self-Organizing Structures

A. V. Alpatov and N. V. Rybina p. 652 [abstract](#)

Interaction of Photons with Electrons of a Metal during the Irradiation of Its Surface in Vector-Potential Space

A. N. Volobuev, S. V. Lukachev, A. P. Tolstonogov and I. V. Kolomin p. 658 [abstract](#)

On the Combination of Methods of Temperature-Accelerated Dynamics and Hyperdynamics

E. V. Duda and G. V. Kornich p. 667 [abstract](#)

Kirkpatrick–Baez and Wolter X-Ray Focusing Optics (Review)

V. V. Lider p. 670 [abstract](#)

X-ray Absorption Spectroscopy Analysis of Heavy Metals by Means of a Silicon Detector

S. M. Osadchii, A. A. Petukhov and V. B. Dunin p. 683 [abstract](#)

Silicon Detectors with a Differential Discriminator for Use in X-Ray Diffractometers

S. M. Osadchii, A. A. Petukhov and V. B. Dunin p. 690 [abstract](#)

Solid-Phase Interaction in Fullerite-Bismuth Films in the Process of Thermal Annealing

L. V. Baran p. 695 [abstract](#)

Nickel Electrochemical Deposition onto the Surface of Anodized Aluminum

I. V. Gasenkova, I. M. Andrukovich and V. V. Tkachev p. 700 [abstract](#)

Method of Laser Thermal Image Spectroscopy for Surface Diagnostics

S. A. Demin, V. T. Prokopenko, E. V. Shalobaev, A. V. Demin and A. S. Demina
p. 705 [abstract](#)

On the Reflection of Hydrogen and Deuterium Atoms from a Tungsten Crystal in the Surface Channeling Mode

P. Yu. Babenko, A. N. Zinoviev and A. P. Shergin p. 712 [abstract](#)

Potential Energy of Interaction between an Atom and an Atomic Plane

V. P. Koshcheev and Yu. N. Shtanov p. 716 [abstract](#)

Two-Flux Model of Charged-Particle Transport in a Condensed Material under Multiple Scattering: Average Energy Losses and Range of a Beam of Monoenergetic Electrons with Energies of 0.1 keV–1.0 MeV

N. N. Mikheev p. 719 [abstract](#)

Formation of SEM Images in the Slow Secondary Electron Mode. 1. Structures with Large Side Wall Inclinations

Yu. A. Novikov p. 727 [abstract](#)

Computer Analysis of AFM Images of a Silicon Surface Implanted with Zinc Ions and Oxidized at Elevated Temperatures

V. N. Sokolov, O. V. Razgulina, V. V. Privezentsev and S. V. Ksenich p. 734 [abstract](#)

Analysis of Natural Diamonds by Rutherford Backscattering

V. V. Sokhoreva, V. M. Malyutin, E. B. Kashkarov and S. I. Kuznetsov p. 740 [abstract](#)

Effect of the Surface Microtopography of Titanium Matrices on the Proliferation and Viability of Fibroblast-Like Cells

A. I. Shaikhaliev, A. A. Polisan, S. Yu. Ivanov, Yu. N. Parkhomenko, M. D. Malinkovich and K. N. Yarygin p. 744 [abstract](#)

On the Phase Transformations and Field-Emission Properties of Diamond and Graphite Structures upon the Ion Implantation of Nitrogen

R. K. Yafarov, A. V. Smirnov and A. R. Yafarov p. 752 [abstract](#)

Structural, Morphological, and Sorption Characteristics of Imperfect Nanocrystalline Calcium Hydroxyapatite for the Creation of Dental Biomimetic Composites

D. L. Goloshchapov, A. S. Lenshin, K. A. Nikitkov, V. N. Bartenev, D. V. Savchenko, E. A. Tutov and P. V. Seredin p. 756 [abstract](#)

Effect of the Surface Structure of a 2D Nanofiller on the Elastic Modulus of Polymer Nanocomposites

G. V. Kozlov and I. V. Dolbin p. 766 [abstract](#)

Characterization of Co-Electrodeposited Functionally Gradient Ni-Al₂O₃ Composite Coating

Z. Noroozi, M. Rajabi and B. Bostani p. 771 [abstract](#)

Orientalional Effects Observed During the Passage of Electrons Induced by an Electric Field in Low-Concentration Aqueous Solutions of Liquid Crystals

M. N. Shipko, N. V. Usol'tseva, A. L. Sibirev, O. M. Maslennikova, M. A. Stepovich and A. I. Smirnova p. 777 [abstract](#)

On the Effect of the Crystal Structure in the Sputtering of Two-Component Single-Crystal Structures

V. N. Samoilov and N. G. Ananieva p. 780 [abstract](#)
