## *Journal of Surface Investigation: X-ray, Synchrotron and Neutron Techniques*

---

Vol. 16, No. 3, 2022

---

Effect of Chain Architecture and Conformation on the Features of the Statistical Strength Distributions of Oriented Polymer Materials

*Yu. M. Boiko, V. A. Marikhin and L. P. Myasnikova* **p. 321** [abstract](#)

Layered Co/Cu and Ni/Cu Nanowires: Relationship between the Structure and Magnetic Properties

*I. M. Doludenko, D. L. Zagorskiy, P. D. Melnikova, V. P. Menushenkov, A. R. Gilimianova, L. V. Panina, D. A. Biziaev and R. I. Chaibullin* **p. 326** [abstract](#)

Formation of the Near-Surface Layer of a Triple Solid Solution in Wafers of Binary Compounds of Groups III–V due to Solid-Phase Substitution Reactions

*V. I. Vasil'ev, G. S. Gagis and V. I. Kuchinskii* **p. 333** [abstract](#)

Effect of Pressure on the Temperature Dependence of the Effective Thermal Conductivity of Gallium Antimonide with Different Degrees of Ordering

*R. M. Aliev, A. A. Aliverdiev, Yu. P. Zarichnyak, E. N. Ramazanova and V. D. Beybalaev* **p. 338** [abstract](#)

Changes in the Electrical Conductivity of Polypropylene Modified with Nanoparticles of Oxide Compounds

*M. M. Mikhailov and V. A. Goronchko* **p. 343** [abstract](#)

Kinetic Phenomena in a Semiconductor Excited by an Oriented Beam of Fast Particles

*E. A. Mazur* **p. 347** [abstract](#)

Determination of the Limiting Characteristics of a Laser-Diode Bar by Analyzing Emission in the Near Field

*A. N. Aparnikov, E. V. Buryi, N. E. Orlov and V. D. Shashurin* **p. 359** [abstract](#)

## On the Concept of “Complexity” in Radiation Physics

*B. L. Oksengendler, A. F. Zatsepin, A. Kh. Ashirmetov, N. N. Turaeva, S. Kh. Suleimanov, N. N. Nikiforova and Kh. B. Ashurov* **p. 364** [abstract](#)

## Role of Temperature in the Radiation-Induced Damage of Silicon-Carbide Diodes by High-Energy Charged Particles

*V. V. Kozlovski, A. E. Vasil'ev, A. A. Lebedev, A. M. Strel'chuk and M. E. Levinshstein* **p. 374** [abstract](#)

## Semiempirical Approach to Explanation of the Self-Isolation Mechanism of Proton Beams Sliding along a Dielectric Surface

*L. A. Zhilyakov and V. S. Kulikauskas* **p. 380** [abstract](#)

## Influence of Multiple-Elastic-Scattering Processes in Multicomponent Targets on the Intensity of the Peaks of Elastically Reflected Electrons

*V. P. Afanas'ev and L. G. Lobanova* **p. 384** [abstract](#)

## Thermoelectric Properties of $\text{Cd}_3\text{As}_2 + n \text{ mol } \% \text{ MnAs}$ ( $n = 10, 20, 30, 44.7$ ) at High Pressures

*L. A. Saypulaeva, A. G. Alibekov, N. V. Melnikova, G. V. Sukhanova, A. V. Tebenkov, A. N. Babushkin, M. M. Gadzhialiev, V. S. Zakhvalinskii, A. I. Ril and S. F. Marenkin* **p. 390** [abstract](#)

## Influence of the Surface Film (Third Body) on the Friction and Wear Process of Carbon-Fiber Composites

*A. G. Shpenev, T. I. Muravyeva, I. V. Shkalei and P. O. Bukovskiy* **p. 397** [abstract](#)

## Study of Memristors Based on Silicon-Oxide Films Implanted with Zinc

*V. V. Privezentsev, V. S. Kulikauskas, V. V. Zatekin, D. A. Kiselev and M. I. Voronova* **p. 402** [abstract](#)

## Surface Alloying of 3Cr2V8F and 5CrNM Die Steels by Means of an Electron Beam in Vacuum with $\text{B}_4\text{C}$ and Al Treatment Pastes

*U. L. Mishigdorzhijn, A. P. Semenov, N. S. Ulakhanov, A. S. Milonov and D. E. Dashev* **p. 408** [abstract](#)

## Change in the Chemical Composition of a Carbide Tool with Ti–Al–N Coating Surface Layers During Machining

*K. N. Ramazanov, E. L. Vardanyan, V. R. Mukhamadeev, I. R. Mukhamadeev and A. A. Maslov* **p. 412** [abstract](#)

Effect of the Thickness on Photoelectric Parameters of a Textured Silicon Solar Cell

*J. Gulomov, R. Aliev and B. Urmanov* **p. 416** [abstract](#)

Aluminium Thin Film Surface Modification via Low-Pressure and Atmospheric-Pressure Argon Plasma Exposure

*M. I. A. Samad, N. Nayan, A. S. A. Bakar, A. H. Wageh, A. A. Hamzah and R. Latif* **p. 421** [abstract](#)

Design of the Proton Injector for Compact Neutron Source DARIA

*V. A. Skalyga, I. V. Izotov, S. S. Vybin, T. V. Kulevoy, G. N. Kropachev, A. L. Sitnikov and S. V. Grigoriev* **p. 427** [abstract](#)

Method for Interferometric Determination of X-Ray Train Length

*H. R. Drmeyan* **p. 434** [abstract](#)
