Journal of Surface Investigation: X-ray, Synchrotron and Neutron Techniques

Vol. 17, No. 5, 2023

Investigation of the Biodistribution of Gd_{0.5}La_{0.5}F₃:Eu Nanoparticles in the Internal Tissues of Laboratory Mice Using X-Ray Computed Tomography and X-Ray Fluorescence Analysis

O. E. Polozhentsev, D. V. Khodakova, A. S. Goncharova, I. A. Pankin and A. V. Soldatov **p. 947** [abstract](#)

Surface Crystallization and Magnetization-Reversal Processes in Amorphous Microwires

O. I. Aksenov, A. A. Fuks, G. E. Abrosimova, D. V. Matveev and A. S. Aronin **p. 954** [abstract](#)

Investigation of the Corrosion Properties of Bulk Amorphous Metal Alloys Based on Zirconium

A. V. Yakovlev, D. V. Balybin, V. A. Fedorov, T. N. Pluzhnikova, D. Yu. Fedotov and A. A. Shlykova **p. 960** [abstract](#)

ZrO₂/Cr Multilayer Coating for the Protection of E110 Zirconium Alloy from High Temperatures

D. V. Sidelev, S. E. Ruchkin, M. S. Syrtanov, A. V. Pirozhkov and P. N. Maximov **p. 966** [abstract](#)

Mechanism of Solid-Solution Hardening: Quasi-Localization of Dislocation Kinks

B. V. Petukhov **p. 971** [abstract](#)

Composites with a Matrix Based on Niobium and Molybdenum Reinforced with Sapphire Fibers

V. M. Kiiko, V. P. Korzhov and V. N. Kurlov **p. 978** [abstract](#)

Layered Composite Materials Based on Ti/Ta/Hf/Ceramic for Operation under Extreme Conditions

O. K. Kamynina, S. G. Vadchenko, I. D. Kovalev and D. V. Prokhorov **p. 984** [abstract](#)

On the Radiation Stability of ZnO Powders Modified with Native Nanoparticles

M. M. Mikhailov, S. A. Yuryev, A. N. Lapin and V. A. Goronchko **p. 990** [abstract](#)

Determination of the Collimation Degree of a Coherent X-Ray Beam Using a Planar Multilens Interferometer

D. A. Zverev, V. A. Yunkin, S. M. Kuznetsov, A. A. Barannikov, M. N. Sorokovikov, M. A. Voevodina and A. A. Snigirev **p. 995** [abstract](#)

Kinetics of Hydrogen Evolution during Ammonia Borane Hydrolysis with Cobalt-Based Catalysts

N. Ya. Dyankova, N. V. Lapin, V. V. Grinko and A. F. Vyatkin **p. 1001** [abstract](#)

On the Properties of a Deformable Medium Element as a Factor of the Superplasticity of Metallic Materials

Yu. V. Solov'eva, Ya. D. Lipatnikova, I. G. Vovnova and V. A. Starenchenko **p. 1009** [abstract](#)

On the Influence of the Parameters of a Layered Target and an Electron Beam on Diffracted Transition Radiation and Parametric X-Rays

S. V. Blazhevich, O. Yu. Shevchuk, A. V. Noskov and A. E. Fedoseev **p. 1016** [abstract](#)

Some Methods for Improving the Quality of Magnetic Force Microscopy Images

A. G. Temiryazev and M. P. Temiryazeva **p. 1022** [abstract](#)

Use of Special Devices for the X-Ray Interferometric Investigation of Structural Imperfections in Single Crystals

H. R. Drmeyan and M. S. Vasilyan **p. 1028** [abstract](#)

Effect of Neutron Irradiation on the Spectral Characteristics of $\text{In}_x\text{Ga}_{1-x}\text{N}$ LEDs

O. V. Tkachev, S. M. Dubrovskikh, K. D. Koksharova and A. V. Fedorets **p. 1034** [abstract](#)

On the Possibility of Observing the Effect of Quantization of the Orbital Angular Momentum during the Passage of Laser Radiation through an Optical Fiber

N. P. Kalashnikov and A. S. Olchak **p. 1040** [abstract](#)

Fine Crystal Structure, Spectral Properties, and Surface Micromorphology of 1,3,5-Triamino-2,4,6-trinitrobenzene, 1,1-Diamino-2,2-dinitroethylene, and Benzotrifuroxan Films Obtained by Gas-Phase Crystallization

A. V. Stankevich, A. V. Sobolevskaya, M. S. Streltsova, A. N. Gretsova and O. A. Frolova **p. 1043** [abstract](#)

Observation of Surface Plasmon Resonance in Monochromatic Terahertz Radiation on Indium Antimonide

I. Sh. Khasanov, V. V. Gerasimov, O. E. Kameshkov, A. K. Nikitin and V. V. Kassandrov **p. 1052** [abstract](#)

Field-Frequency Variation during Plasma-Chemical Deposition of Silicon–Carbon Films as a Method for Their Structural Modification

A. I. Popov, A. D. Barinov, V. M. Yemets, M. Yu. Presnyakov and T. S. Chukanova **p. 1060** [abstract](#)

On the Plasma Spraying of Silicide Coatings to Protect Zirconium Alloys from Oxidation

I. B. Gnesin, D. V. Prokhorov, N. I. Gnesina, A. N. Nekrasov, B. A. Gnesin, V. I. Vnukov, M. I. Karpov, I. S. Zheltyakova and T. S. Stroganova **p. 1065** [abstract](#)

Protective Coatings of W–Re Thermocouples for Use in Aggressive Environments

G. V. Kirichuk, A. A. Kozlov, P. A. Prokopovich, A. Yu. Goikhman and K. Yu. Maksimova **p. 1074** [abstract](#)

Effect of the Annealing Conditions on the Formation of a Nanocrystalline Phase in TiO_x

A. V. Nezhdanov, A. O. Zhukov, D. V. Shestakov, L. M. Vinogradova, A. A. Skrylev, A. V. Ershov, D. A. Pavlov, A. I. Andrianov, A. S. Markelov, G. De Filpo, M. Baratta and A. I. Mashin **p. 1078** [abstract](#)

Application of Synchrotron-Radiation Diffraction Techniques for Optimizing the Sintering Trajectory of Al_2O_3 –Ce:(Y,Gd)AG Composite Ceramics

A. P. Zavjalov and D. Yu. Kosyanov **p. 1083** [abstract](#)

Synchrotron-Radiation Technological Station at the VEPP-4M Storage Ring

B. G. Goldenberg, I. S. Gusev and Y. V. Zubavichus **p. 1088** [abstract](#)

Determining the Orientation of a Single-Crystal and the Absolute Energy of X-Rays Using Diffraction Losses

N. B. Klimova and A. A. Snigirev **p. 1094** [abstract](#)

Change in the Optical Properties of BaSO₄ Powder Modified with SiO₂ Nanoparticles upon Sequential and Separate Irradiation by Quanta of Solar Spectrum and Protons

M. M. Mikhailov, A. N. Lapin and S. A. Yuryev **p. 1103** [abstract](#)

Magnetotransport Studies of (Cd_{1-x}Zn_x)₃As₂ at High Pressures

L. A. Saypulaeva, V. S. Zakhvalinskii, A. G. Alibekov, S. F. Marenkin, Z. Sh. Pirmagomedov, M. M. Gadzhialiev, A. I. Ril and A. V. Kochura **p. 1110** [abstract](#)

Effect of a Pulsed Magnetic Field on the Heterodiffusion of Sn in α -Fe in the Paramagnetic Temperature Range

A. A. Fedotov, S. V. Voronin and A. V. Pokoev **p. 1116** [abstract](#)

Effect of Structural Reorganization of the Surface Layer in AMN-P and OPMN-P Membranes on the Transport Characteristics of the Electronanofiltration Separation of Aqueous Ammonium Chloride Solution

S. I. Lazarev, D. N. Konovalov, I. V. Khorokhorina and P. Lua **p. 1120** [abstract](#)

Surface Silvering and Silver Enrichment of the Surface Layer of AD 253/4 Bosporan Staters: Electron Probe Microanalysis Data

M. G. Abramzon, Yu. Yu. Efimova, N. V. Koptseva, D. A. Gorlenko, I. A. Saprykina and T. N. Smekalova **p. 1127** [abstract](#)

Investigation of the Morphology and Electrical Properties of Structures Based on a Single-Crystal Si/Microcrystalline ZnO Heterojunction

A. R. Semenov, V. G. Litvinov, T. A. Kholomina, A. V. Ermachikhin and N. B. Rybin **p. 1134** [abstract](#)

Magnetron Deposition of Oxide Films in the Metallic Mode Enhanced by Radio-Frequency Inductively Coupled Plasma Source

D. V. Sidelev and E. D. Voronina **p. 1143** [abstract](#)

Cathodoluminescence and Photoluminescence Studies of Undoped and Eu^{2+} Doped SrAl_2O_4 Phosphors Prepared by Combustion Method

M. Nazarov and D. Spassky **p. 1148** [abstract](#)

Structural Features and Phase Transitions during Dehydrogenation of a Composite Based on Magnesium Hydride and Metal-Organic Framework Structures MIL-101 (Cr)

V. N. Kudiiarov, N. E. Kurdyumov, R. R. Elman and N. S. Pushilina **p. 1156** [abstract](#)

As_2S_3 Glass Quenched in a Weak Magnetic Field

S. A. Kozyukhin, M. Krbal, S. Kohara, A. A. Kononov, N. I. Anisimova and A. V. Kolobov **p. 1162** [abstract](#)

Growth and Characterization of $\text{Cd}_{1-x}\text{Cu}_x\text{O}$ ($x = 0.02$) Film by Sol-Gel Aided Screen-Printing Route for Diverse Applications

Vipin Kumar, Renu Kumari, Parvin Kumar, D. K. Dwivedi, Vandana Grace Masih, Manoj K. Tiwari and N. P. Yadav **p. 1168** [abstract](#)

An Investigation by Monte Carlo Simulation of the Sputtering Process in Plasma

Bouazza Abdelkader **p. 1172** [abstract](#)
